

HELLO !

My name is Naguib Bouchibi and I am an 21 years old Developer. Passionate about new technologies and numeric development I dedicate my time to improve my proficiency with creativity and curiosity.

EDUCATION

42: A ONE-OF-A-KIND COMPUTER ENGINEER SCHOOL

Thanks to a brand new Peer-to-Peer pedagogy, the studies occurs in the same terms as in a company, with passion as the only engine in the most stimulating coding and entrepreneurship environment.

HIGH SCHOOL DIPLOMA: SCIENTIFIC EDUCATION

Successfully completed a science education which provided me solid algorithm foundations to program and code.

EXPERIENCE

HEC PARIS: DESIGN THINKING

A month was the deadline we had to build a startup in teams composed by Businessmen, Designers and Developers. Teamwork and communication were the key-words to complete this program from the 2nd best Business School in the World.

AWARDS

HrHACKATHON BY TALENTYS: BEST COMMUNICATION TEAM

My team and I won the prize of the best team spirit during a Hackathon which put under the spotlight our capacity to work in a team made with people from different fields and succeed to produce an app.
